Why Is It So Cold?

[PLAY: Clip from "Climates" from Bill Nye the Science Guy series](#)

Why are some parts of the earth colder than others? It all has to do with the tilt of the earth on its axis and an area's proximity to the sun's rays, as

Bill Nye the Science Guy

explained by Bill Nye using a globe and heat lamp in this clip from *Climates*, from the *Bill Nye the Science Guy* series available on **CCC! Streaming Media**.

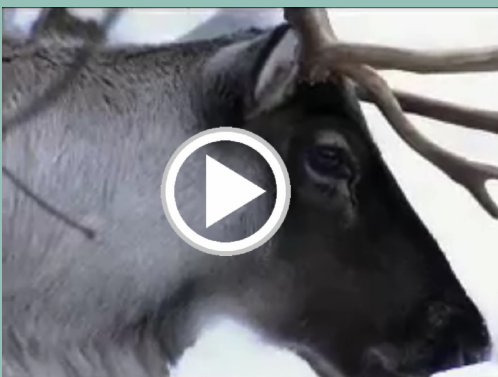

Reindeer Gains

Over time, all animals adapt to their environments, including reindeer. In this clip from **CCC! Streaming Media's Frozen Ecosystem Adaptations**, you'll see how a reindeer hooves have

Reindeer, also called caribou, are a species of deer

evolved to give the animals an edge for surviving in snow-covered climates.
